

SHELVES

Customizing the CustomCut™ Reversible 10 and 15 inch Shelf

Use as a conventional shelf.

Front profile depth - 1"
Shelf body depth - 3/4"

Endcaps for 10" and 15" shelves

Endcaps provide a finished end for the shelves. Endcaps are universal and can be used on either end of shelf.

TIP:

Endcaps add 3/8" to shelf width.

Endcap attachment

Secure Endcaps with a couple dots of 'super glue' (cyanoacrylate).

Flip the reversible shelf to use the 1/4" deep tray.

Basket balls will not roll off. It is an ideal shelf for problem possessions. Finally, a place to sort your marble collection.

Cutting shelves to length

Cut with conventional blade. Use a fine tooth plywood/laminate blade for greater precision.

TIP:

Eliminate surface chips. Use of masking tape for protection can result in no-chip perfect cuts.
